On June 26, 2003, Regal Diversified, Inc. dba Regal Telephone Company filed an Application for a Certificate of Public Convenience and Necessity (CPCN) to provide resold services within the State of Idaho. Regal is a reseller of local telephone service and is incorporated in the State of Montana. Regal is currently doing business in the States of Montana, Arizona, Wyoming and Oregon.

Regal intends to provide local service that must be prepaid for 30-day periods and will be discontinued when the customer fails to prepay pursuant to a Company reminder. Regal also intends to provide optional Call Waiting, Caller ID, Non-published Directory Number, Directory Assistance, National Directory Assistance, Last Call Return, Continuous Redial, Voice Messaging, Three-Way Dialing and Call Trace.

On September 23, 2003, the Commission issued a Notice of Application and Notice of Modified Procedure to process Regal's Application. During the written comment period provided by the Commission, written comments were filed only by the Commission Staff. Staff noted that Regal is a privately held company that does not hold ownership or management interest in any other company. Regal provided its balance sheet and profit statement for the period ending December 31, 2002. The financial statements show Regal to be solvent with a 78% debt equity ratio. Regal intends to provide service after it receives a CPCN and obtains an Interconnection Agreement with Qwest Corporation. Staff stated that Regal has met the Commission's requirements for obtaining a Certificate to provide local service in Idaho.

The Commission finds that Regal Diversified, Inc. dba Regal Telephone Company has satisfied all the requirements of the Commission's Rules and Procedure Order No. 26665 setting forth all the requirements for an application for a Certificate of Public Convenience and

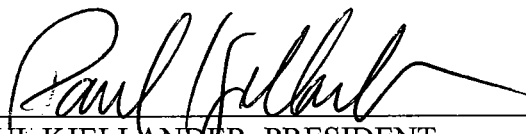

Necessity. It is therefore appropriate for the Commission to approve the Application of Regal Diversified, Inc. dba Regal Telephone Company.
